

To Whom It May Concern:

Our home health agency, Guardian Home Care, has used the services of Select Data for approximately two years. We have been extremely pleased with their service in terms of accuracy, operations, and integration within our organization. Our staff works closely with the team at Select Data to accurately reflect diagnoses and codes for our home health patients.

We had used a previous organization and have seen a huge improvement in accuracy and consistency with Select Data during the time that we have used them. As the chief clinical officer for Guardian Home Care, it is extremely important for reimbursement, compliance, and integrity of our agency, that we have an accurate methodology for the coding portion of our business.

I would highly recommend Select Data, and have done so for many colleagues within the industry.

Please call me directly should you have any questions.

Warmest Regards,
